YEAR 2023-2024

Christin Kamptner - Title I Math Interventionist

Hello! I am thrilled to be teaching the Title 1 math program for our Elmwood Park learners in grades 1-8. I have been involved in the education field for over 16 years and I am no stranger to the wonderful school community of St. Celestine.

Right after obtaining my Bachelor of Science degree in Elementary Education from DePaul University, I started my teaching career at St. Celestine. I taught third grade for twelve enjoyable years! During that wonderful time, I was even fortunate enough to meet my husband, your awesome music teacher, right here at school! Now married for over twenty years, Mr. K. and I have been blessed with two remarkable children.

Nicholas is a kind-hearted and bright 7th grader! He is great with numbers and trivia. Don't be surprised if you see Nicholas on Jeopardy one day! Emily is a sweet and super creative 3rd grader! You can catch Emily on the soccer field or perhaps you might see her on America's Got Talent someday performing her mesmerizing magic tricks! I truly love being a quiz bowl mom and a soccer mom, but in my spare time, I personally enjoy reading, tennis, and watching all sports; especially the Cubs!

I am grateful to return to St. Celestine as a Title 1 teacher and I am beyond honored to work with the fine staff, students, and families of this very special St. Celestine community.
