Christin Kamptner- 3rd Grade

Hello! My name is Christin Kamptner. I am a proud product of Catholic education and I have been involved in the education field for over 18 years. I am no stranger to this wonderful St. Celestine community! Shortly after obtaining my Bachelor of Science degree in Elementary Education from DePaul University, I started my teaching career here. I taught third grade for twelve enjoyable years! I am thrilled to be returning to my favorite grade after taking time off to raise my children.

During my first stint at St. Celestine, I was fortunate enough to meet Mr. Kamptner right here at school! Now married for twenty- two years, Mr. K. and I reside in Mount Prospect and we have been blessed with two remarkable children. Nicholas is a kind-hearted and bright 8th grader! He is great with numbers and trivia. Don't be surprised if you see Nicholas on **Jeopardy** one day! Emily is a sweet and super creative 4th grader! You can catch Emily on the soccer field or perhaps you might see her on **America's Got Talent** someday performing her mesmerizing magic tricks! I truly love being a quiz bowl mom and a soccer mom! In my spare time, I enjoy reading, tennis, taking long walks with my family, and watching all sports; especially the Cubs.

I am grateful to return **full circle** to St. Celestine and I am beyond honored to work with the fine staff, students, and families of this very special St. Celestine community.
