YEAR 2021-2022

Dina Niemczyk - 5th-6th Grade Social Studies Teacher

First of all, I am very happy to be back at St. Celestine, this will be my 15th year here. I graduated from Northern Illinois University in 2005 with my Bachelor of Science degree in Education. I've taught English at St. Celestine School for 10 years and am going into my 5th year of teaching social studies here. Last year, I received my Masters in Education from WGU in Learning and Technology.

In my spare time, I enjoy watching sports (especially our St. Celestine Celtics). It would not be out of the ordinary for you to find me at a few games throughout the season. I love going to Wrigley Field and watching the Cubs during the summer. During the school year, I enjoy going to the United Center to watch a Bulls or Hawks game. If the Bears played in a dome, I'd probably make it to more of their games as I am not a fan of cold weather.

I try to go on vacation as often as possible when travel is allowed. Over the past summer, I was finally able to enjoy some time with my family in Branson, MO, and also went to visit family down in Mississippi. It has been a while since I was able to see family so I'm even more grateful for the time we are all able to spend together these days.

As usual, I look forward to another incredible year here at St. Celestine's.
