YEAR 2022-2023

Dina Niemczyk - Sixth Grade - Room 213

First of all, I am very happy to be back at St. Celestine, this will be my 16th year here. I graduated from Northern Illinois University in 2005 with my Bachelor of Science degree in Education. I've taught English at St. Celestine School for 10 years and am going into my 6th year of teaching social studies here. In 2020, I received my Masters in Education from WGU in Learning and Technology.

In my spare time, I enjoy watching sports (especially our St. Celestine Celtics). It would not be out of the ordinary for you to find me at a few games throughout the season. I love going to Wrigley Field and watching the Cubs during the summer. During the school year, I enjoy going to the United Center to watch a Bulls or Hawks game. Sundays in the Fall and Winter are known as Football Days, which is when I cheer on the Bears.

I finally bought my first home last year and have been spending a lot of time adding to it and making it my own. When I'm not doing work at home, I'm a big fan of vacations and will be heading to Disney World later this year. I can't wait!

As usual, I look forward to another incredible year here at St. Celestine's.
