YEAR 2021-2022

Eric Mueller - Maintenance Engineer

I have been working at St. Celestine School for over 10 years now and can't believe how quickly the time has gone. I especially enjoy working with the staff and students. My nickname here at school is MacGyver because I often take odds and ends to fix or construct new things the teachers may need to help them in their classrooms.

My wife and I were married in St. Celestine Church 36 years ago. We have 4 children, all of whom graduated from St. Celestine School, and we recently became grandparents and enjoy spending time with our grandson. I still enjoy activities with my children including camping, boating, hockey, and playing Frisbee golf.
