YEAR 2021-2022

Mattie Hawkinson - 4th Grade - English / Science Teacher

I'm so happy to be joining the wonderful learning community here at St. Celestine. I look forward to getting to know you all, especially the 4th grade scholars.

I am currently working toward my Master's Degree in Teaching through Dominican University and graduated from Northwestern University studying Communications and English. After college I traveled around the country working as a classical theatre actor and theatrical teaching artist, which was my first opportunity to work in elementary schools. Over the years I've substitute taught, worked in Special Education, taught 4th grade drama and social studies, and instructed high school English and Reading.

My husband is also a teacher and together we chase around after our two year-old child, who is maybe the fastest running toddler you've ever seen. I cannot wait for a wonderful year with you all.

Giving thanks for the warm welcome,

Mrs. Hawkinson
