YEAR 2021-2022

Melanie Malone - Speech Pathologist

This is my tenth year as the Speech-Language Pathologist at St. Celestine. I attended Miami University in Ohio for my undergraduate degree and Rush University in Chicago for my Masters of Science in Communication Sciences and Disorders.

You can find me at St. Celestine two days a week working with students from all grade levels. It is very rewarding to see how students progress from year to year and meet their goals! When I'm not at St. Celestine I provide speech-language and feeding therapy to children under the age of 3 through the Illinois Early Intervention program.

I live in Chicago with my husband and we are expecting our first child this December! We like surprises so we are waiting to find out whether baby Malone is a girl or a boy until they make their arrival this winter. In my free time I love cooking and baking (can't forget dessert!). In non-pandemic years I also enjoy skiing, attending concerts, and cheering on the Cubs and Blackhawks!
