YEAR 2024-2025

Sean Monahan – 6-8 Grade

My name is Sean Monahan and I am so excited to back on the St. Celestine team. This will be my eighteenth year as an educator, and am glad to be back on a junior high team and teaching my passion, Social Studies.

I am so excited to become a part of the St. Celestine School community again! Both of my children attended elementary school here and received an excellent education thanks to all of the dedicated faculty and staff. Both of my children attend the University of Wisconsin-Milwaukee, where my son Kevin is a graduate student where he hopes to pursue a career in higher education with a PhD in Electrical Engineering, and my daughter Caitlin is a junior studying Urban and Regional Planning.

I am a parishioner here at St. Theodore Mother Guerin. My family enjoys traveling to our nation's National Parks, a small lake in Central Wisconsin, and Disneyworld. This past summer I personally visited two National Parks and traveled to Washington DC with my kids. I enjoy cooking, barbecuing, and spending time with my very large extended family.

I am again so excited to be a part of this wonderful community and having an amazing school year!
