YEAR 2023-2024

Sean Paschal – 5th Grade – Room 206

This is my second year at St. Celestine school and I could not be more excited! And while I've been in education for years, this is my first year teaching Social Studies. I am also currently pursuing a Master's in Education to further my schooling and better educate my students. Being a lifelong learner, I aim to broaden my mind and learn something new every day. Besides education, I am passionate about animals and giving back to the community. Nothing makes me happier than lounging with my cat and dog, reading the current book I'm devouring, taking a run through the forest preserve, or listening to some of my favorite records while basking in the sun. I absolutely love keeping the mind and body happy and healthy.
